Filed May 15, 2001 : Examiner John M. Hoffman

ORIENTED SINTERED CERAMIC  
PRODUCT AND  
MANUFACTURING METHOD THEREOF

**Mail Stop Amendment**

**RESPONSE**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

THE COMMISSIONER IS AUTHORIZED  
TO CHARGE ANY DEFICIENCY IN THE  
FEE FOR THIS PAPER TO DEPOSIT  
ACCOUNT NO. 23-0975.

Sir:

Responsive to the Office Action of December 21, 2004, the time for responding thereto being extended for one month in accordance with a Petition for Extension of Time submitted herewith, Applicants submit the following remarks in support of the patentability of the presently claimed invention over the disclosures of the references relied upon by the Examiner in rejecting the claims. Further and favorable reconsideration is respectfully requested in view of these remarks.

The rejection of claims 1, 2, 12 and 13 under 35 U.S.C. §102(b) as being anticipated by Topchiashvili et al. is respectfully traversed.

The Examiner takes the position that Topchiashvili et al. teach the solvent, the solidifying and the dispersing, and that the rest of the limitations (e.g. non-ferromagnetic and not cubic powder, colloid process, sintering...) are discussed elsewhere. The Examiner also asserts that it is well known that the Topchiashvili et al. powders are inherently non-ferromagnetic and not cubic, and the Examiner takes Official Notice of such.
